## Merry Christmas

Here comes Santa with a sleighful of merriest Christmas wishes for our many kind friends and all those they hold dear. We hope your holiday will be an especially joyous one, holding a wealth of happy hours. It has been both a privilege and a pleasure to serve you, and we thank you for your most kind patronage.

FROM THE STAFF OF

HANCOCK COUNTY EAGLE

**WHERE IS SANTA?**  
 Along with "Who is the sky blue?" and "Why can't I see the stars?" the favorite question of children everywhere is very often, "Where does Santa Claus live when Christmas is all over?"  
 Parents faced with this puzzle seldom get involved in explanations of just what and where is the North Pole. They can answer with a straight face and a map to back them up. "Why Santa Claus, Indiana, of course!"  
 Or how about Bells, Tennessee; Evergreen, Alabama; Holly, Washington; or Noel, Missouri, as suitable quarters for Santa?  
 These are just a sample of the

many towns and villages all over the country that are named in the spirit of Christmas, in the hope of preserving the good will and cheer of this happy season all year.  
 There's only one disadvantage in living in one of these towns. Local parents, faced with the question, "Where does Santa live?" have to say, "Why, right here in Bells, Tennessee, for instance. In fact, the question would be asked in Dad's kindergarten, 'Where does Santa live?' and we go visit him."

**WHITE HOUSE GUIDES YULE TRADITIONS**  
 Many of the cherished traditions which make Christmas merrier in the United States had their start in the White House.  
 George Washington, first President of the United States, surrounded himself with family and grandchildren at cheerful Christmas parties, and set the theme of "merry Christmas" for his country. Washington also furthered the use of American holly as a decoration by growing the glossy-leaved tree on his estate at Mount Vernon.  
 Andrew Jackson was fond of giving large, colorful parties for young and old on Christmas Day. Frozen ice, a novelty at that time,

was served, and there was a small, incense-burned pine tree, surrounded by toys.  
 Franklin Pierce introduced the modern Christmas tree in the White House in 1856.  
 Benjamin Harrison, in 1889, told reporters he planned an "old-fashioned Christmas" including a Christmas tree, for his family and serving the custom.  
 Theodore Roosevelt once refused to allow a Christmas tree in the White House. His son, Archie, smuggled one in, however, and the President finally relented.  
 First lighting of the National Community Christmas Tree at the White House was observed in 1923, when Calvin Coolidge was President.

**HEALTH INSURANCE PROTECTS MORE THAN BEFORE**  
 Health insurance protects 45 million more Americans today than it did 10 years ago, over 97 million Americans were covered by hospital expense insurance. Since then there has been a coverage increase of nearly one and one-half times, and a total of over 146 million persons were protected against the cost of hospital care at year-end, the Institute said, while at the beginning of 1946, 100 million persons were insured.

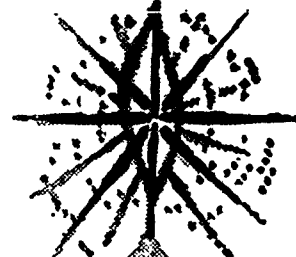

The same type of growth has been shown, said the Institute, by other forms of health insurance. In 1946, nearly 24 million Americans had surgical expense insurance, but in the following 10 years there was a 97 percent increase in this coverage. In 1956, nearly 47 million Americans had surgical expense insurance, a 97 percent increase over 1946. Regular medical expense insurance covered nearly 24 million Americans in 1946. However, there was a coverage increase of more than two times in ten years, so that more than 102 million persons were insured last year.

## BISHOP GEROW ORDAINS 4 TO DIACONATE AT DIVINE WORD SEMINARY HERE

His Excellency Bishop Richard O. Gerow should feel as much at home in the chapel of the Divine Word Fathers, Bay St. Louis as in his own cathedral church in Natchez. As on numerous past occasions he ordained 4 young men to the diaconate on Monday. They were: Rev. Frater Gerhard Vogel of Riegelsberg-Sarr, Germany, Rev. Frater Borgia Auhespin of Opelousas, La., Rev. Frater Charles

Boykins of Alexandria, La., and Rev. Frater John Wynn of Miami, Fla.

## TWO CONTRACTS OVER MILLION LET AT MICHOU

HUNTSVILLE, OLA. - The NASA Marshall Space Flight Center has awarded two contracts totaling \$1,240,344 for work at the Michoud Assembly Plant in New Orleans. R. B. Tyler Company, New Orleans, received a \$1,024,644 contract for building and rehabilitating parking lots and roads.

## BOY ONE OF TWELVE NATIONAL WINNERS

CHICAGO, NOV. 20 - Fred Tractor, 17, of Sunflower, Miss., one of 12 national winners in the 4-H Tractor Program, was awarded a \$500 scholarship during the week-long annual 4-H Club Congress here.

Fred won the Mississippi state tractor crown for outstanding activity and leadership in the Tractor Program. He received an all-expense paid trip to the Club Congress in recognition of his achievement.

As a state winner, he was eligible to compete for one of the 12 national Tractor Program scholarships awarded annually.

Fred is a guest at the Congress of the American Oil Foundation.

The New Orleans firm will build four parking lots which will provide paved parking space for some 1,635 cars. The job also includes reworking several existing roads.

The second contract was awarded to Quinn Construction Company, New Orleans. The firm will receive \$215,700 for building a cafeteria on the mezzanine of the Michoud manufacturing building. The mezzanine cafeteria will cover some 25,200 square feet and will seat 750 personnel. The cafeteria is scheduled to be completed in mid-May.

Two major contractors are building Saturn rocket stages at the Michoud plant. The Boeing Co. is fabricating the Saturn V first stage, while the Chrysler Corp. is building boosters for the Saturn IB vehicle.

Inc., which provided his money, has now sponsored the Tractor Program in 48 states. About 75,000 participate in the program which is conducted nationally by the co-operative Extension Service, working with the National 4-H Service Committee, Inc.

Miss Teenage America, 17-year-old Carolyn Mignini, Baltimore, Md., presented young Tractor with a plaque symbolizing his achievements at a special ceremony Sunday night. Fred also will be an honored guest at a recognition banquet Tuesday night when he receives his scholarship award from the American Oil Foundation.

Fred lives with his parents, Mr. and Mrs. C. B. Fissackerly, on a 2,300-acre farm in Sunflower County and is a junior at Moorhead High School. He has been a football letterman for two years.

Fred is president of the Moorhead Senior 4-H Club this year and has a total of 65 4-H awards to his credit, including county and state tractor awards. He estimates he has spent 423 hours on his tractor during 1964.

"If it were not for the tractor, I would probably not have had any crops," he says. "Tractors play the most important part in everything we raise. The 4-H tractor project has taught me tractor safety, how to service all parts of the tractor, and how to use it to do my own work in my cotton, corn, garden, and pasture projects."

Fred says he saved \$170 this year by operating his tractor instead of hiring it done, and has saved \$325 by servicing his equipment himself.

**1960 YEAR** - Business promises to start next year with a risk of recession. But how long this will keep up is in doubt. And even when it is being worked out, the lightened profit margin and the current uncertainty in the money markets.

Profits reported in the first half of 1960 were held about steady during the summer months. A renewed forward surge in the first months is hoped for but the costs of strikes and other production slowdowns are yet to be tallied. Many industries are counting on sales to also continue to mount.

Official raising of long-term rates here didn't follow. In practice, however, businessmen dicker

**REFLECTIVE LICENSE PLATES**

Gray said that reflective automobile license plates give warning a much greater distance than now is possible and promised to reduce collisions between vehicles at night.

He stated that traffic safety experts consider the plates a means to prevent night-time collisions with parked or disabled cars and rear-end crashes.

According to these traffic specialists the plates can be seen up to 2,000 feet which is more than three times farther than the visibility of ordinary license plates.

Gray said the reflective plates were no more than standard license tags, covered with a special reflective material and this material reflects directed lights 150 times brighter than ordinary paint.

Gray said the state should adopt reflectized plates as standard for all motor vehicles and that in addition, there should be two plates issued to each vehicle instead of one.

"From a safety standpoint as well as that of enforcement, a reflectized plate should be placed on the front and back of each

What is the market situation? Now that I cut my timber to the greatest advantage in the long run?

These type questions and others are always confronting our landowners about their timber. Much to have some assistance with these timber problems, if he plans to grow the high quality timber that our markets are demanding.

Researchers each day are finding new uses of our forest products. Every time a new wood product is put on our market today, the industry is looking for high quality raw materials. If you as timber landowner plan to grow this high quality timber, then you need to put the right species on the right site, prepare fire lanes around areas, thin when needed.

More and more industries are looking for sites in Mississippi to put their mills into operation. Is your timber ready for a new wood-using industry? Do you have the quality people? If you can answer yes to these questions then we can expect more industries in our area and here a higher economy standard in our community.

Mississippi Forestry Commission Forester Arthur Vardel of Hancock County is available to give private landowners the assistance that is needed for you to grow high quality timber.

#### STATE BOARD OF HEALTH RELEASE

Vaccination is the only effective method of preventing flu, according to the State Board of Health release. The state's preventable disease director says that to date the number of influenza cases has been few but that with the coming of inclement winter weather the virus will spread more rapidly.

#### MESSAGE OF CHRISTMAS LIVES ANEW

"And lo, the Star, which they saw in the east, went before them, till it came and stood over where the young Child was." Matthew 2:9.

"And they came with haste, and found Mary, and Joseph, and the babe lying in a manger." Luke 2:16.

From two who became His disciples come the words that tell the story of that Holy Night, the first Christmas. Matthew the tax collector wrote of the Star that shone in the east, and of wise men who followed it to find and worship Him.

Luke, the physician, wrote of shepherds watching in the fields and herald angels singing in the heavens.

At church services during this Christmas season the words of the tax collector and the physician will be read and studied once again, with ever-deepening meaning.

And as the story is told anew, it is also reflected in the many observances of Christmas, both in

The joyful sound of bells hark back to the first of all carols, the words of the heavenly host, "Glory to God in the highest, and on earth peace, good will toward men."

The glow of candles symbolizes the light of Christ as the Light of the World, and it also mirrors the gleam of the Star of Bethlehem.

The spirit of giving takes guidance from the gifts of the Wise Men, who brought gold, frankincense and myrrh to Him. Above all, at Christmas, mankind experiences once again the reverence, wonder and rejoicing of the wise men of whom Matthew says, "And when they were come into the house, they saw the young Child with Mary His mother, and fell down and worshipped Him."

Christmas cards of 1870 were frosted and fringed with heavy silk. The folder-type card, so much in evidence today, was not popular during the 19th century, when single cards were more frequently seen.

Inclement winter weather the virus will spread more rapidly. Particularly does Dr. Blakey recommend flu vaccine for expectant mothers, senior citizens and persons of any age who have chronic diseases, such as heart disease, kidney disease, diabetes, blood diseases and other lung and bronchial disorders.

"Children of school age," said the public health specialist, "are attacked by flu more than any other group. Frequently they come in contact with the virus at school and bring it home, where it spreads throughout the family."

While no major nationwide outbreak of flu is expected this year, Dr. Blakey urges each Mississippi family to seek the advice of the private physician or the health department, which family members should be vaccinated against local outbreaks.

"Flu vaccine has provided up to 80-percent protection against this epidemic disease in repeated scientifically conducted trials," said Dr. Blakey. "This year an even stronger vaccine containing added protection is available."

**SUPPORT SERVICES AT MICHOU**

NEW ORLEANS, La. - The National Aeronautics and Space Administration announced today that the joint venture of Mason-Rust Co. of New Orleans, La., has been selected for negotiation of a contract to provide support services at the New Orleans Michoud Assembly Plant.

Mason-Rust has provided support services to Michoud since December 1961 when NASA began operations at the plant. The parent organizations are the Rust En-

gineering Company, Pittsburgh, Pa., and the Mason and Hanger-Silas Mason Company, Lexington, Ky. A one-year contract award for contract will be negotiated with provisions for as many as three consecutive one-year extensions.

Cost of the first year of work is expected to be about \$12,000,000. The work will require approximately 1,000 persons, about the same as currently employed.

The services to be provided are communications, custodial, fire protection, food, plant maintenance, plant engineering, photographic, medical, reproduction, se-

curity, safety, supply and transportation.

Mason-Rust will also provide these services at the Michoud Computer Operations Office in nearby Slidell, La. This facility is operated by Telecomputing Services, Inc., for NASA.

The Michoud Assembly Plant is a facility of the NASA-Marshall Space Flight Center, Huntsville, Ala., which has management responsibility for the Saturn program. Approximately 11,500 industry and Government personnel are employed at Michoud.

The two prime production contractors at the facility which em-

ploy more than 10,000 are Chrysler Corporation and the Ford Motor Company. The plant is the final stage of the Saturn V and Saturn V vehicles respectively.

Mason-Rust was one of six firms which responded to request for proposals issued by NASA in September.

## MANY TALENTS FOR "JUNIOR MISS" PAGEANT

Those who attend the Junior Pageant Saturday, at 7:00 p. m., at St. Joseph Academy Auditorium will see a wide variety of talents. Pageant director, E. J. Marengo reported the following:

Janet Crow will twirl two fire batons to the tune of Java, Linda Dunnam will sing a melody of songs, Karen Crawford will do a recitation of creation, Sandra Filigame will display sewing and play piano, Nan Nelson will roller skate, Melva Luke will do a pantomime, Anna Gottschalk will recite "A Tribute to a Great President", which she wrote, Darcel Russell will dance and Marilyn Piazza will do a skit she wrote, "An Angel Looking for Baby Jesus". The variety of talent is in addition to live organ music played by Prima Thomas, poise and appearance division (evening gowns) and the youth fitness division in which all contestants wearing red shorts and white blouses carrying tennis rackets do tennis motions and a dance step in unison to music.

Carol Choppin is choreographer for the youth fitness routine. The pageant day will begin with a motorcade at twelve noon, each contestant will ride in a convertible with her mother. At 2:00 p. m., contestants will meet the judges at a tea in the Jaycee Building and be personally interviewed by the panel of five judges from out of town. This interview accounts for 35 percent of the scoring.

The scholastic judging which accounts for 15 percent has been completed. Judges for this were Leroy Lizza, principal, Pass Christian High School; Philip Brandon, principal Long Beach High School; Sister Mary Grace, principal St. John's Catholic High School, Gulfport; Sister Columbo, principal Sacred Heart Catholic High School, Biloxi; Mrs. Lance Lumpkin, registrar, Gulf Park College.

A special trophy will be presented to the scholastic winner and a special trophy to Miss Personality, voted upon by the contestants themselves. Climax of the pageant will be the crowning of Bay St. Louis-Waveland's Junior Miss by Carolyn Anderson, Mississippi's Junior Miss.

## Charge Youth In Auto Death

An 18-year old local youth is on a \$1,000 bond awaiting a hearing December 28, before Beat 5 Justice of the Peace, Nolan Ladner on a charge of involuntary manslaughter.

Sheriff Sylvan J. Ladner, said Anthony J. Fauetta, 419 St. John Street, was charged with manslaughter in connection with the death of Clayford Mitchell, 53, December 10 following an automobile collision involving Fauetta's 1960 Chevrolet and Mitchell's 1957 Ford.

The accident occurred at St. Joseph St. Waveland and old U.S. Highway 90 at 10:30 p. m. According to the Sheriff, Mitchell was thrown from the car by the impact of the collision.

He was taken by Riemann's ambulance to Hancock General Hospital and was transferred to the following morning where he died 5 hours later. The accident was investigated by Chief Deputy Sheriff Eldo DePreo.

Mitchell, who operated a retail Grocery Store in Bay St. Louis is survived by his wife, Mrs. Prudent Lee Mitchell; a daughter; 5 grandchildren; 2 brothers; and 3 sisters. Funeral services were held at 2:00 p. m. Sunday at Bienville Baptist Church near Picaune with interment in Gipson Cemetery.

### BOOKS POUR INTO BAY HIGH LIBRARY

In response to Bay High's PTA appeal for books for the high school library, school-spirited citizens have sent so far more than three hundred volumes, many of which will greatly enrich the value of the reference shelves as well as the fiction section. Among the authors whose works have been given are James Fenimore Cooper, Edgar Allan Poe, Washington Irving, Alcott, Daniel Defoe, and Sir Walter Scott, and also accepted with pleasure have been biographies of Henry Clay, Emile Zola, Rembrandt, Joan of Arc, and John Paul Jones. Two books on the stories of operas have been given and one on how to appreciate great symphonies. Another volume treats of the explorers of North America, and there is a five-volume set of important events in the world's history. The most outstanding gift to the library in this drive, however, has been a four-volume set entitled "National Portrait Gallery of Distinguished Americans" bound in gold-tooled black leather and published one hundred and thirty years ago. This set will provide invaluable material for biographical research for history and literature courses. By special request the book program will continue for one week after the school holidays are over. At this time an award will be made to the class responsible for the donation of the greatest number of usable books. At present the junior class is in the lead.

### HUNTING FORBIDDEN ON NASA-MTO FEE AREA

GAINESVILLE, MISS. — With the advent of hunting season, officials at the National Aeronautics and Space Administration's Mississippi Test Operations have released the following information: Hunting is forbidden on the 13,424 acre fee area where construction on rocket testing facilities is now under way. This area has been fenced and is posted. Hunting on lands in the 128,528 acre buffer zone which NASA is taking easement on is strictly up to the respective property owners. There is acreage in the buffer zone, however, that the government has purchased outright and hunting is forbidden.

### THE HANCOCK COUNTY BOARD OF SUPERVISORS MONDAY AUTHORIZED THE COUNTY PORTS AND HARBORS COMMISSION TO MAKE APPLICATION FOR A FEDERAL GRANT TO DEVELOP PLANS FOR A PROPOSED INDUSTRIAL PARK ON THE PEARL RIVER.

Hardin H. Shattuck, president of the ports and harbors commission, was authorized to make an application for a \$731,000 grant to the Housing and Home Finance Agency under the "Accelerated Public Works" program. The total cost of the proposed Pearl River development, including navigation channels, turn basins, public dock facilities, railroad spur and access roads is estimated at \$2,115,500. The ports and harbors commission on Dec. 10 had adopted a resolution requesting the board to approve filing of an application for planning funds. Preliminary studies of the proposed project have been made by Michael Baker Jr., consulting engineers. Supervisors also approved estimates on the cost of road construction within the area of Mississippi Test Operations and in executive session, discussed with Bay St. Louis Mayor John Scaffidi and Police Chief Lathan Garriga the payment of costs of feeding city prisoners incarcerated in county jail. Vice President, Dolph Keller, presided in the absence of President R. G. Hubbard Jr., who is ill. Other supervisors present included Charles Lavinghouse and Harlan G. Dean. The next board meeting is on Monday, January 4.

### FORM "GAINESVILLE MUSEUM COMMITTEE" TO RECORD HISTORY

"Gainesville Museum Committee" has been formed here on the banks of the Pearl River where history began for this South Mississippi region which is now giving way to the building of a Space Age facility to test rockets that will someday fly to the moon. In the wake of construction of the National Aeronautics and Space Administration's Mississippi Test Operations, many valuable historical records and landmarks stood to be lost forever in the shuffle of this giant project. So, NASA officials at MTO called together four persons in the area interested in preserving the past as well as building for the future. The area where this rocket testing facility is now being built was settled by the French in the early 1700's. Forming the new historical committee which will work closely with members of NASA's Public Affairs Office are Roy Baxter, Jr., Pearlport; S. G. Thigpen, Sr., Picaune; J. Roland Weston, Bay St. Louis; and Mrs. Virginia Wagner, Bay St. Louis. W. C. Mabry, NASA, will serve as coordinator for the historical group. Documents and other items of historical interest will be selected and screened by this committee. They will then be placed in the Logtown Post Office which has been relocated in old Gainesville on the banks of the Pearl. The post office served the Logtown area from 1893 until it closed this year. Residents of Gainesville had to leave Logtown in 1962 to make way for construction of the test site. It is located in the main complex of the facility. Residents had to leave Logtown, about six miles south of Gainesville, this year because that area lies in the test facility's acoustic "buffer zone."

# 175,237 MISSISSIPPI DRIVER LICENSES EXPIRE DEC. 31

Are you one of 175,237 whose driver license will expire on December 31?

If so, you are advised by Commissioner of Public Safety, T. S. Birlington, to renew early and avoid the rush.

Each year driver licenses expire on the last day of each quarter; that is, all licenses expire on one of four dates: March 31, June 30, September 30 or December 31. On those dates, hosts of motorists line up for renewal by each renewal agent in the state.

Why not be an early applicant and avoid waiting in line while hundreds of motorists jam the corridors. Check your license now. If you find that it will expire on December 31, go directly to your renewal agent. Renewal is \$2.75 for one year or \$5.25 for two years by any renewal agent, or \$2.50 for one year and \$5.00 for two years at your state headquarters building, Jackson.

THE CHAIRMAN explained that the 1964 marketing year under the wool program is the first full year to operate on a calendar-year basis. Producers are urged not to let the deadline slip by.

Producers should make sure that all details of the 1964 sales are completed not later than December 31, 1964. This includes passing title to the buyer, delivering the wool to the buyer either physically or through documents transferring control to the buyer, and having available all the information needed to determine the buyer's total purchase price.

Applications for the 1964 marketing year payments under the National Wool Act may be filed with the ASCS county office any time between now and the end of January, 1965. The 1964 payments will likely begin in April of next year.

GAINESVILLE, MISS. - Two vice presidents of the General Electric Co., visited the National Aeronautics and Space Administration's Mississippi Test Operations and the company's plant and technical support organization here last week.

Thomas K. Edenfield, GE vice president for the Southeastern Region, and Edwin H. Howell, who heads the Southwestern Region, were hosted by William R. Eaton, General Manager of the Mississippi Test Support Operation, his staff and MTO officials. The visitors received an orientation on the status and activities at the large testing site for space vehicle stages and engines, including a briefing by William C. Fortune, Manager of MTO.

## Local Kottus

With such changeable weather it is hard to decide whether to go fishing or hunting. Bad weather is good for duck hunting but no good for fishing. Fishing out in the marshes is fairly good but some spots are better than others and it's up to the fisherman to find these spots. According to information, speckles, reds and flounders are being caught at P/loki Bayou at this time. Free Mason and Mitchell Key are always likeable places and the real big ones are usually there.

Pearl River proper and all its tributaries below Logtown, are on

the muddy side including the North Bayou. The water in Bayou Cat is in clear and speckles are being caught in the canal running into the bayou and the Bayou itself. Some speckles are being caught up Jordan River but not too many. The water is clear but fishing is not too hot just now. A few were caught on live bait but live bait is practically out of the question at this time. Trolling and casting with plugs is paying off. A few speckles, reds and other salt water fish are being caught on dead bait.

When you see such guys as Le Roy Lake, Pat Garcia, Raoul Telford, Alden Mauffray, August Bauxet, Dec Elliott and other old timers casting from the bank, there must be some fish around.

Green trout fishing hasn't been too good lately. Exceptionally low tides could be the cause. Trolling for them should improve pretty soon.

What will Hawaiians think of next? First it was hula hoops, then surfboards. Now it's luminous skirts for hula dancers.

But maybe the dancers' skirts were inspired by one of America's

most successful fishing tackle companies. Whenever you see a boy fluorescent rubber skirts to fit on any fishing lure designed to "wear" a tail. That includes everything from Hula Poppers to Hawaiian Wiggles.

But why fluorescent skirts? "There are many instances," confides Dick Kottis, president of Fred Arbogast Company, which has brought out a new line of such skirts, "when they can almost double your catch."

The truth is that fluorescent skirts are visible in deeper, darker and murkier water than regular skirts. That means a fisherman presents his lure to more fish during any day's fishing.

Every fisherman has his own ideas on whether fish distinguish colors or not. Disagreement also arises over whether fish strike from anger or hunger. But this much is certain: game fish are attracted by brightness or glitter, and they do strike with stomachs already filled.

Many of our local fishermen and hunters fish and hunt in our sister state of Louisiana. The Louisiana Fish and Game Commission is doing wonderful work in conserving game and fish and

affording sportsmen fair game to hunt and fish. Louisiana is a state where you can find everything you need for a successful hunting and fishing trip. The purchase price was \$25 per acre.

J. D. Hart, Jr., director of the Wild Life and Fisheries Commission, in commenting on the transaction, had this to say: "This is a milestone in the proper management of Louisiana's wildlife resources and will guarantee forever that this huge area will be preserved as a home for wildlife and a place for future generations to fish and hunt and enjoy the great outdoors."

"This purchase of land gives the Wild Life and Fisheries Commission and people of Louisiana a direct link to Larto Lake, considered one of the finest freshwater sport fishing lakes in the country," Hart added.

In addition to the excellent fishing areas the tract will afford hunting opportunities to thousands of sportsmen each year. Deer, squirrel, rabbits, and waterfowl should be plentiful for the many generations ahead.

Experts agree that there is no perfect lure. You need a baited selection, along with suggested places for use, to solve the many problems that fishing location presents. That's why the successful angler has an assortment of well-used lures in various colors in his tackle box. It pays off to try new lures and finally you'll come up with the one that catches more fish.

The next time you are out on the water, take a look around. See that fellow beating the lake to a froth with a lure? He's not fishing. He's working! Someone should tell him to have an easy and confident approach, pick his spots with care and lay his lure in gently. Then, after a slight pause, start to bring it in at a varying pace. He will get more fun, relaxation and strikes by taking it easy. The way I look at it, what more could anyone ask from fishing?

This is what Dick Kottis, an expert fly and casting fisherman says.

We don't have many fish hand grabbers in our section, but for their information the season for hand grabbing is closed. In Hancock and Pearl River Counties, and anyhow, the water is darn cold at this time of the year.

The season for racing at the Fairgrounds in New Orleans is at its height right now and a number of our racing fans patronize the grounds regularly. It's a pleasure to go to the races when you can leave the Bay about 11:00 a.m., and return leaving New Orleans at 5 p.m. A good card is presented each racing day and special races are held on Saturdays and holidays. Some of the best horses in the country are sabled at the grounds.

According to reports some hard crabs are still being caught. They are of good size and fat, ideal for crab gumbo, etc. A few nets and a little meat or fish heads will do the trick.

The third part of the dove split seasons opened Dec. 10 and closes January 15, 1965. Better start looking for good fields. According to hunters, doves are coming in and some good hunts should be had soon.

About the only ones who do a thriving business when it rains all day are the taxi drivers. God bless them. A phone call and they are on the job.

Camped out in a little camp in the marshes over the weekend. Had hot meals, kept warm and killed geese, ducks and snipe and we had some for supper.

Had the pleasure of having with us Nick Colletti and his brother "Little Joe" Colletti. Both are good sports and hunters and usually get their share of game and fish. See you later, fellows. Thanks for the use of the camp!

Rabbit hunters say that they

## UNIVERSITY OF MISSISSIPPI

The University of Mississippi has been awarded a new grant totaling \$119,700 by the National Science Foundation in support of its 1966 Graduate School Summer Institute for high school teachers of science and mathematics.

High School teachers who have had at least three years teaching experience but feel in need of further training in their chosen fields or need acquaintance with the more recent developments and advances in science or mathematics may qualify for stipends and allowances while attending the institute.

The Shamrockers, a pleasure club composed of young men held their meeting at the Knock-Knock Club Monday night. Plans were made for a "Shin-Dig" to be held soon.

## LOCAL SPORTSMAN

**BREWSTER MOLLERE**  
Brewster who comes from a large list of local hunters and fishermen has it in his blood as he puts it.

Learning from his Dad, Brewster has learned many tricks about hunting and fishing and puts them to good use. As a dove hunter, he usually gets his share and doesn't miss having game on his table during all hunting seasons. It's good to know that we have these young bucks to carry on for us old guys who can't roam the woods like we used to!

## ASK BIDS FOR INSTALLING EQUIPMENT AT NASA MTO

Competitive bids will be received at the U. S. Army Corps of Engineers district office at Mobile, Alabama, on January 12 for furnishing and installing equipment for a test maintenance building at the \$250-million-dollar NASA Mississippi Test Facility, which is under construction in Hancock County, Mississippi.

The Army Engineers are constructing the facility for the George C. Marshall Space Center for use in performing acceptance tests on the first two stages of the Saturn V moon rocket.

The test maintenance building is being constructed by Carpenter Brothers of Dallas, Texas, under a \$1,313,000 contract awarded by the Army District Engineer at Mobile last June. It will provide facilities for maintenance of rocket test equipment.

The work being advertised at this time includes furnishing and installing equipment for a plate metal shop, a welding shop, a pipe and tube shop, a machine shop, and a spray shop. A total of 33 items will be furnished and installed and an additional 64 items of Government-furnished equipment will be installed.

Bidding will be restricted to her training in their chosen fields or need acquaintance with the more recent developments and advances in science or mathematics may qualify for stipends and allowances while attending the institute.

The 75 high school teachers who participate in the program may elect to earn in three sequential summers the degree of Master of Combined Sciences. The degree requires thirty-six semester hours of course work, eighteen hours of which must be in advanced courses in the major subject of biology, chemistry, mathematics, or physics, and twelve hours in the minor subject also chosen from one of these four fields. Stress is placed upon acquiring subject matter competence rather than upon teaching methods.

Qualified high school science and mathematics teachers throughout Mississippi and adjacent states are invited to request application forms and submit them to Dr. William H. Norman, Director, NSF Graduate School Summer Institute, The University of Mississippi, University, Mississippi. Completed forms should be submitted before February 15, 1965.

Small business operating in the field of scientific and technical equipment, a fair share of Government procurements.

## Kundert-Kingston Wedding

Our Lady of the Gulf Catholic Church was the setting for the wedding at 2 o'clock Saturday afternoon of Miss Mary Alice Kundert, daughter of Mr. and Mrs. Chester B. Kingston and Donald Richard Kundert of McConnell, Ill., presently stationed at Eglin A. F. B., Florida, son of Mr. Edwin M. Kundert and the late Mrs. Kundert of McConnell.

The Rev. Michael Kelly performed the double ring ceremony. Fan-shaped arrangements of white chrysanthemums decorated the altar.

Professor Joseph Hemmersbach, organist, played the processional and recessional and a program of nuptial music during the ceremony.

Given in marriage by her father, the bride wore a floor length gown of white peau de soie, pearls studded appliques of Chantilly lace trimmed the front panel and the chapel train which cascaded from the waist. She wore a single strand of pearls.

Her elbow length veil of illusion fell from a crown of seed pearls and lace. She carried a cascade of carnations and lace centered with a white orchid.

Miss Janell Kingston, sister of the bride, was maid of honor and bridesmaids were Misses Dianne Kingston, another sister, and Jo Ann McCullough.

They wore aqua street length satin dresses fashioned with fullness in the skirt and scalloped sweetheart necklines. On their heads they wore large satin bows with circular net veils.

The maid of honor carried a cascade of blue lace carnations and the bridesmaids blue lace carnations in the shape of crescents.

Otto Bourgeois Jr., served as ring bearer and Ginger Necaise was flower girl. James Hughes of Eglin Air Force Base, Florida, was best man.

Alvin Bourgeois, cousin of the bride, Waveland, and Richard Branchi, Eglin AFB, served as groomsmen. Ushers were Terry Branigan, Bay St. Louis, and Elvin Hernandez, cousin of the bride, New Orleans. Carl Ladner Jr., was altar boy.

Potted palms and white mums decorated the Knights of Columbus Hall for the reception.

The bride's table, covered with a white lace cloth, was centered with the four-tiered wedding cake topped with a miniature bride and groom, lilies of the valley and white sweetheart roses encircled with fern and white blossoms. Silver candelabra holding white tapers were on either side.

The punch table was decorated with small white mums and greenery.

Mrs. L. J. Weinberg presided at the punch table and Miss Cheryl Meredith was in charge of the bride's guest book. Tea girls were Misses Mary Lou Gavagnie, Cathy Johnson, Elaine Bourgeois, Pat Ferniclaro, Ellen McDonald and Pili White.

For traveling the bride wore a three-piece tow-tone gray knit suit with matching accessories and an orchid corsage.

Upon their return from a wedding trip to points in Alabama and Florida, the couple will make their home at Fort Walton, Florida.

The bride, a graduate of Bay High School, attended Pearl River Junior College where she was a member of Phi Beta Lambda. She was formerly employed at Aetna Finance Company, Gulfport.

The groom was educated in Monroe, Wisconsin Schools, served in the Army and is presently serving in the U. S. Air Force.

Out of town guests were Mr. and Mrs. William Fernandez and son L. J. Mr. and Mrs. Jules Bourgeois, Mr. and Mrs. Norman Scott, Mr. and Mrs. Ben Bourgeois, Mr. and Mrs. L. J. Weinberg Sr., all of New Orleans; Mr. and Mrs. Carl Richardson, Marrero, La.; Miss Joyce Ware, Mrs. Greg Necaise and Mrs. Tom Wimpee, Gulfport.

In order to give our employees a well-earned vacation, our Company will close at 3:00 p. m. on December 24, 1964, and remain closed until 8:00 a. m., Thursday, January 4, 1965.

We will appreciate our customers planning ahead on their requirements so as not to be inconvenienced by our closing.

We extend the Season's Greetings to all.
